## American Woodcock

The American Woodcock is rarely seen during the day as its plumage matches the forest floor and fields where it roosts. This is a highly detailed sculpture, exquisitely carved and painted, and mounted on a grassy base. It is a specialty carving and only one is currently available.

All of our life-sized birds are carved from bass wood, hand-feathered to show detail and painted with acrylic paint. The eyes are glass, feet are metal and base is wood. The woodcock measures 7.75 inches high, 10.5 inches from beak to tail and the bird itself is 3.5 inches wide.

Your satisfaction is guaranteed!
