Blue Grosbeak

The Blue Grosbeak is often found wagging its tail back and forth as it forages for food in grain fields and streamside thickets. The carving shows off the grosbeak's deep blue feathers and chestnut-colored wing bars and is mounted on a tree branch with a mossy base.

All of our life-size birds are hand-carved from basswood (a very carveable wood that does not split and takes paint well), feathered to show detail and painted with acrylic paint. The eyes are glass, feet are metal and base is wood.

The bird carving measures 7 inches from beak to tail, is 3.5 inches high and has an overall height of 6 inches.

Your satisfaction is guaranteed!
