### Description

## BLUEBIRD (Female with worm on perch)

This carving is of a female Bluebird ready to feed her young with a small worm she holds in her bill. The bird is perched on a wooden stump with a green mossy base.

All of our life-size birds are hand-carved from basswood (a very carveable wood that does not split and takes paint well), hand-feathered to show detail and painted with acrylic paint. The eyes are glass, feet are metal and base is wood. The bluebird measures 6 inches from beak to tail, is 3.5 inches from head to foot and has an overall height of 6 inches.

The detail of this carving is amazing. It looks great perched on the wire. This is a very reputable website to buy from.
