Saw-Whet Owl

The **Saw-Whet owl** is one of the tamest and smallest owls and is found throughout most of the United States, southern Canada and into Alaska. The call of the male sounds like a saw being sharpened, thus the name!

All of our life-size birds are hand-carved from basswood (a very carvable wood that does not split and takes paint well), hand-feathered to show detail and painted with acrylic paint. The eyes are glass, feet are metal and base is wood.

The saw-whet measures 5.5 inches high with an overall height of 8 inches.

Your satisfaction is guaranteed!
